Expenditures beyond the means of private individuals are required for surveys, engineering, and the construction of reservoirs, canals, and other hydraulic works, for the purpose of irrigation in this State. We therefore favorliberal appropriations by Congress for surveys, both hydrographical and topographical, to ase rtain how the waters of this State, which now run to waste in flood time, may be stored and utilized for the purpose of agriculture, to the end that when all the facts are known suitable aid may be obtained from Congress to en ble the Government of the United States to dispose of its lands, and on and occupy the same.
